Buenos Aires Data Center

Benefits of BUE1

Security

Cirion customers benefit from the robustness of a Data Center designed for maximum security. With cutting-edge infrastructure, strict access control, 24/7 monitoring, and compliance with the highest international standards, we ensure protection against physical and digital threats. This guarantees **business continuity with high availability** and resilience.

Connectivity

With Cirion's Data Centers' **Carrier Neutral** policy, you can rest assured in choosing the best connectivity option for your business. Hundreds of carriers and service providers are at your disposal through interconnections in the Ecosystem.

Energy

Cirion's customers can grow without worries, thanks to a robust and **sustainable energy infrastructure**. With high energy availability and advanced **green policies**, companies can expand their operations safely, efficiently, and in an environmentally responsible manner.

Refrigeration

With a strictly controlled air-conditioned environment, Cirion's Data Centers prevent equipment overheating, reducing the risk of failures and interruptions. This ensures **uninterrupted operations, higher service availability**, and reliability for customers.
