Benefits of CAR1

Security

With 24/7 monitoring, biometric access control, and advanced threat detection systems, Cirion's Data Centers offer customers a **secure and reliable environment**. This ensures data integrity and operational continuity without unexpected interruptions.

Connectivity

Cirion's Data Centers' **Carrier Neutral** policy allows customers to choose from various **telecommunications providers** to connect their infrastructures, ensuring resilience, **low latency**, and **greater network optimization**. This approach promotes redundancy, reduces failure risks, and improves service availability, providing a highly scalable and secure environment for critical applications.

Energy

Cirion's customers operate with safety and sustainability, thanks to a **redundant energy infrastructure and advanced green practices**. This ensures uninterrupted operations and a genuine commitment to environmental preservation.

Refrigeration

Maintaining equipment in a Data Center with controlled climate conditions **ensures greater security and reliability** for business operations. Optimal temperature and humidity levels guarantee better server performance, preventing unexpected downtimes and reducing maintenance and hardware replacement costs.

Characteristics

Cooling Redundancy: N=1

Electrical System Redundancy: 2N

Energy: 110/220 V AC / -48 V DC

Products:

- Colocation
- Bare Metal
- Private Cloud
- Managed Hosting
- Interconnection

Amenities:

- Dedicated Work Area
- Coworking (Shared Work Area)
- Cafeteria
- Parking
- Visitor Wi-Fi
- Consoles with Monitor, Keyboard and Mouse
- RFID Control with Inventory, Monitoring and Traceability
- Updated Byface of Racks

Why Choose Cirion

Cirion has over **25 years** of experience operating Data Centers in **7 Latin American countries**, providing services for **Hyperscalers, Service Providers, and Enterprises**. We guarantee low-latency, scalable, and secure infrastructure, supporting a digital ecosystem with over 1,500 customers.

Cirion's Data Centers Platform excels with the largest regional interconnection system, an extensive portfolio of solutions, and **unmatched carrier-neutral interconnection capabilities**. Our unique regional coverage, easy access to an established ecosystem, comprehensive certifications, AI readiness, and commitment to sustainability make us a reliable and forward-thinking partner.

Integrated into our Latin American Digital Ecosystem, with access to Multiple Clouds and Service Providers.
