

# DC Connect

Instant connectivity between Data Centers in major cities of the Americas

**Cirion is a leading digital infrastructure and technology provider with +160 Data Centers interconnected to its network**

DC Connect is a solution designed to enable connectivity among multiple data centers, allowing secure and efficient data transfer between geographically dispersed sites.

This solution is key for businesses and organizations that operate in multiple locations and require a reliable connection to ensure business continuity and data synchronization.

DC Connect offers secure and redundant connectivity options to ensure data availability, as well as security protocols to protect the integrity of transmitted information.

**+54.500 km**  
Optical Fiber Network  
(Metro and Intercity)

**+36.000 km**  
Subsea Optical Fiber Network

**+60 cities**  
connected in 20 countries

**+160 Data Centers**  
interconnected  
(including Cirion sites)

# DC Connect

Instant connectivity between Data Centers in major cities of the Americas

## Our Fiber Network

- We own +54,500 km of fiber-optic network (Metropolitan and Intercity) and more than 36,000 km of subsea fiber optic network.
- We continue to add kilometers of fiber optics to our metropolitan and Intercity networks, connecting more data centers, main sites and on-net buildings with fiber.

## Connection to key Data Centers in Latin America and Miami

- With more than 160 interconnected Data Centers in more than 60 cities, Cirion provides the greatest connectivity to key Data Centers in Latin America, including the NAP of the Americas in Miami.
- Fast Service Delivery.
- Connectivity based on own fiber, previously implemented and operated by Cirion.
- Quick service activation throughout our coverage area.

## Scalable and Secure Connectivity

- Ethernet services, Wavelengths and Dark Fiber solutions (as available).
- A flexible transport platform adaptable to changing market demands.
- Highly reliable, private and dedicated fiber connectivity.

## Access to the main Public and Private Clouds

- Transform your network into a DC-to-Cloud solution, including direct connectivity to the main platforms in the cloud such as AWS Direct Connect, Microsoft Azure ExpressRoute, Google Cloud Interconnect, Oracle Fast Connect or IBM Direct Link.

## Cost effectiveness

- Minimize operational costs and maximize deployment of your business resources with Cirion DC Connect.
