Cirion's commitment to integrity

Cirion is firmly committed to doing business with integrity, consistent with our Corporate Values and in accordance with all applicable laws and regulations. We expect the same commitment from our Suppliers.

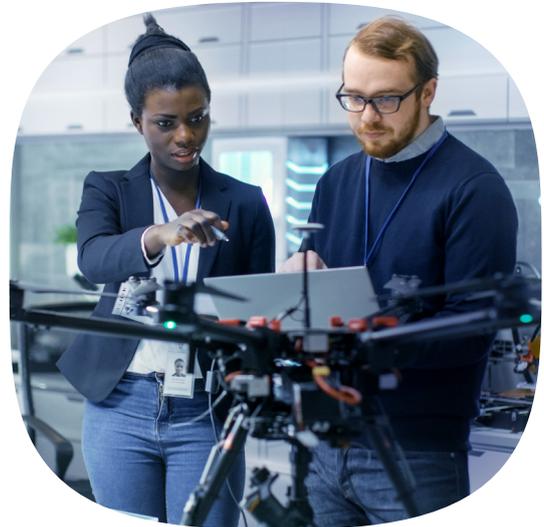

Scope

This Supplier Code applies to current and future suppliers of Cirion ("Cirion" or "company"), and all of Cirion's wholly-owned subsidiaries and affiliates. Cirion expects all agents, consultants, contractors, distributors, manufacturers, suppliers and other business partners, as well as their respective employees, agents, and representatives (collectively "Suppliers") with whom we do business to embrace and share our commitment to integrity and compliance with the law, and to follow the principles set forth within this Supplier Code.

As a company headquartered in the United States that provide or require services in geographies around the world, Cirion is subject to many different laws. While Cirion recognizes the different legal and cultural environments in which its Suppliers operate, we expect our Suppliers to comply with the fundamental principles described in this Supplier Code of Conduct, to always act with integrity, and to take reasonable steps to ensure compliance with applicable laws and regulations.

This Supplier Code of Conduct contains general requirements applicable to all Cirion Suppliers. Particular supplier contracts may have more specific provisions addressing some of these same issues. Nothing in this Code is meant to supersede any more specific provision in a particular contract, and to the extent there is any inconsistency between this Code and any applicable contractual provision, the provision will control unless inconsistent with applicable law.

Suppliers should take appropriate steps to ensure this Supplier Code of Conduct is communicated and understood by all of their employees, agents, subcontractors, and representatives doing business with or on behalf of Cirion.

Corporate Values

Cirion's Corporate Values – Do the right thing, Positive Attitude, Inspire Change, Excellence and Growth Mindset and Leadership and Diversity – represent our fundamental values and are integrated into every aspect of our business.

Conducting business

Accuracy of business records

Suppliers must record and report information accurately and honestly. All financial books, records and accounts relating to Cirion business must accurately reflect transactions, payments, and events, and must conform to generally accepted accounting principles, applicable internal controls or policies, and applicable laws. All business records must be accurate, complete, filed in a timely fashion, and must conform to all other requirements as defined by written contract. Accordingly, Suppliers will provide Cirion with accurate and complete billing information concerning all transactions with the Company.

Anti-corruption and anti-bribery

Cirion prohibits bribery, everywhere we do business, in both the public and private sectors.

Suppliers acting on behalf of Cirion must comply with all applicable anti-corruption laws including, without limitation, the Foreign Corrupt Practices Act ("FCPA"), the U.K. Bribery Act, Brazil's Law No. 12,846, Colombia's Law No. 1471 of 2011, Law No. 1778 of 2016, Law No. 2195 of 2022 and regulations of the competent authorities in Colombia, Argentina's Law No. 27.401 and Mexico's General Law of Administrative Responsibilities and the Federal Criminal Code (and its state correlates).

Cirion Suppliers are prohibited from offering or providing bribes to government officials or representatives of commercial or private entities, whether in cash or any other form and whether paid directly or indirectly through an intermediary. Suppliers are also prohibited from accepting bribes.

Government Officials and Public Employees.

Suppliers must not offer anything of value or make any improper payments to a government official for the purpose of obtaining or retaining business or to otherwise obtain an unfair advantage on behalf of Cirion. When companies are partially or wholly owned by a government entity, any representative of that company is considered a "government official."

When representing or performing work for Cirion, Suppliers are prohibited from providing any business courtesy or anything of value to any employee, official, agent or representative of any government, wherever located, without written pre-approval from Cirion's Legal & Compliance Department.

Suppliers are further prohibited from making facilitation payments while doing business with or on behalf of Cirion. Facilitation payments are any payments to government employees to expedite an administrative process or to perform a function that is normally performed as part of their job.

Exchange of business courtesies

Cirion expects its Suppliers to follow all applicable laws and Cirion policies regarding the exchange of business courtesies, such as meals, gifts, or entertainment, when working with or representing Cirion. Suppliers must never offer any courtesies with the intent to improperly influence any person's business judgment or that might create the appearance of undue influence. Suppliers should keep the following in mind:

- Ordinary business courtesies that are reasonable in value, infrequent and related to a legitimate business purpose are generally acceptable, but Suppliers must avoid offering Cirion employees travel, frequent meals, or expensive gifts or entertainment.
- Gifts of cash or cash equivalents, such as gift cards, are never allowed, whether to a Cirion employee or to a third-party recipient on behalf of Cirion.
- Suppliers should never offer a business courtesy to a Cirion employee involved in making or influencing a purchasing decision, such as a Request for Proposal or Request for Information.

Conflicts of interest

Cirion awards business on the basis of several objective factors, including but not limited to, product or service needs, cost, project management resources, experience, and performance record.

Suppliers must disclose to the Cirion Legal & Compliance Department any known family or close personal relationships with Cirion employees who have any influence over or involvement in Supplier's business dealings with Cirion or may otherwise create a conflict of interest.

Suppliers must comply with export control and economic sanctions laws of the United States and other countries, where applicable, including the Export Administration Regulations, 15 C.F.R. Parts 730-744 and regulations implemented by the U.S. Department of Treasury Office of Foreign Assets Controls ("OFAC").

They must also avoid agreements – formal or otherwise – with their competitors to restrain trade, such as agreements to fix prices, rig bids, divide territories or markets or otherwise limit the sale of our services or products.

Interaction with regulatory and other government agencies

Cirion expects Suppliers to be truthful in all communications with regulatory agency representatives and government officials relating to Cirion business. Suppliers must comply with all applicable laws and regulations, including but not limited to, laws and regulations regarding government ethics, contact with or employment of current or former government officials, lobbying, and the handling of confidential, classified and other sensitive government information. Suppliers must provide services and/or products that meet or exceed applicable government standards, including environmental, quality and safety standards.
